

How to give your kids \$1 million each!

(and it won't cost you a cent)

By Ashley Ormond

Ashley Ormond must have been aware of the research featured in our Social Health article on page 38 of this issue! He recognises that by providing financial freedom for his children, he is not only giving them the opportunity to make choices regarding their future and occupations, he is also giving them the best opportunity to live a longer, less stressful life.

His plan is simple, effective and smart. Not only will the children have available capital as adults, they will also gain thorough knowledge of financial planning, the benefits of spending wisely, investment skills, understanding loans and a sense of self-control over that often touchy subject: money.

This book should be read by all parents - I'm an instant convert and am starting the plan immediately for my two bundles of joy...
