How To Give Your Kids \$1 Million Each
Ashley Ormond
(John Wiley, \$29.95)

I BEGAN developing this plan 12 years ago when my daughter was born. Now I'm also following it with my son who was born six years later. If my wife and I stick to the plan we will be able to give them \$1 million – each.

It's pretty simple and just about anybody can do it – starting with as little as \$1. And it won't cost you a cent. You can give them much more than \$1 million – you can also give them the knowledge and skills to keep it, manage it and make it grow.

Right now you're probably saying to yourself, "That's impossible. This guy's crazy". Or, "It sounds too good to be true – it will never work!" This is a natural reaction and it's good you're sceptical. But I guarantee if you spend a couple of hours reading about how the plan works, you will agree that it makes sense and be keen to get started. In fact, you will probably say something like, "I wish I had started doing this years ago!" First of all, let's dream about that \$1 million we are going to give our kids.
